Replacement gates at the entrance to School Gardens (adjacent to the Coop)

Three contractors were contacted and asked to quote – only one responded with a detailed quote.

Quote obtained after discussion at the Community Assets/Facilities Committee meeting on 01/10/26, item 26/253

SPEC:

- To undo railings, remove 2 x gate leaves from gate posts, and break out 4 x gate posts, and remove from site.
- To supply and erect 2 x 1.200 meter high, galvanized and polyester powder coated yellow, IAE Prosafe, single leaf, self-closing gates.
- Both to be right hand hung – open inwards as the existing.
- Gate No. 1 : 1.390 meter wide inclusive of posts (exact size of gate to be supplied and fitted provided).
- Gate No. 2 : 1.345 meter wide inclusive of posts (is 45 mm larger than the gate to be supplied and fitted - we would need to alter the existing railings/railing post to make this fit).
- Once gates are fitted, then to re fit the existing railings to the gate posts.

QUOTE: £2,825 + VAT

The quotation is fully inclusive of all new materials, fixtures and fittings, and labour costs .

Due to ever increasing costs, this price can only be held for approx. 7 days, and any order placed after this date may require requoting.

We are happy to close off the area with barriers, but you may need to close the footpath adjacent to the gates whilst the works are being undertaken.

Works could commence approx. 4/5 weeks from date of order (as advised by suppliers).
